

# WASHING GUIDE AND CARE INSTRUCTIONS

## WASHING

All our garments are properly tested. Each of our garments has its own washing instructions, and it's important to follow these. If a garment is always washed with similar colours and at the recommended temperature, it will stay looking good for longer. "Wash separately" in the washing instructions means that the colour of the fabric may run – for these garments, which may initially have a little extra dye, it is particularly important to follow the washing instructions.

## PREWASH

Use the same amount of detergent as in the main wash cycle when prewashing very dirty clothes, but skip the prewash cycle completely for less dirty garments. Soaking garments is not recommended due to the damage which undissolved detergent can do to fabrics.

## DETERGENT

Always be sure to use the correct amount of detergent – see the detergent packaging. Choose a bleach-free detergent which is suitable for the temperature of the wash.

## DRYING

Only tumble dry as a last resort – if you have enough time and space, hanging garments out to dry is recommended

as this is better for your clothes. Smooth out the fabric and the seams before hanging up a garment. When tumble drying, the garment should never be completely dried, as this causes unnecessary wear and can cause shrinkage.

## SHOES

Store the clean shoes in a dry and ventilated area when they are not being used. Make sure that the shoes are intact before each time of use. Clean regularly, using a brush, rag or similar. Treat the leather regularly by using a suitable, for example, grease, wax or silicon based shoe polish. Do not use aggressive products (petrol, acids, solvents etc.) that can jeopardise the quality, safety and durability of the personal protection devices. Do not dry the shoes close to or in direct contact with fireplaces, central heating systems or other heat sources.

## GLOVES

Store the gloves in a cool and dry area. The gloves' properties may be affected by air humidity, temperature and strong sunlight. Clean the leather gloves by using a mild solution of soap and water and rubbing the gloves against each other. Leave the gloves to air dry. See below for further washing instructions.

*Good luck!*

**SHOWS THE RECOMMENDED WASH TEMPERATURE**

**DELICATE CYCLE**

**DO NOT USE CHLORINE BLEACH**

**DRY-CLEAN, BUT DO NOT USE CHEMICALS STRONGER THAN PERCHLOROETHYLENE**

**DO NOT DRY-CLEAN**

**DO NOT TUMBLE DRY**

**TUMBLE DRY ON LOW HEAT (50°C)**

**COOL IRON –110°C MAX, SUITABLE FOR NYLON**

**COOL IRON –150°C MAX, SUITABLE FOR POLYESTER/ COTTON**

**COOL IRON –200°C MAX SUITABLE FOR COTTON**

**DO NOT IRON**

**PROFFESIONELL LETHER CLEAN**

**DO NOT WRING**

**HAND WASH ONLY**
